Motif

GROUP OF MONUMENTS AT HAMPI

Traditionally known as Pampakshetra of Kishkindha, Hampi is situated on the southern bank of the river Tungabhadra, in Hospet taluk. It is 13 km. away from Hospet. Once it was the seat of the mighty Vijayanagara Empire.

The monuments of Vijayanagara city, also known as Vidyanagara in honour of the sage Vidyanarya were built between 1336-1570 A.D., from the times of Harihara-I to Sadasiva Raya. A large number of royal buildings were raised by Krishnadeva Raya (1509-1530 A.D.), the greatest ruler of the Dynasty. The period witnessed resurgence of Hindu religion, art, architecture in an unprecedented scale. The contemporary chroniclers who came from far off countries such as Arabia, Italy, Portugal and Russia visited the empire, have left graphic and glowing accounts of the city. It covers an area of nearly 26 sq. km. and is stated to be enclosed by seven lines of fortifications.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Sri T. K. Anil Kumar, Director of Census Operations, Karnataka. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)
Registrar General &
Census Commissioner, India

New Delhi.

Dated:- 16-06-2014

P R E F A C E

Dr. C. Chandramouli, I.A.S. the Registrar General & Census Commissioner, India has traced the history of the district Census Handbooks in the foreword to the 2011 series of the District Census Handbooks (DCHBs). He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain salient data on the population for every village and town as revealed by 2011 Census. It also contains a wealth of information regarding villages and towns which throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information is also of considerable importance in the context of planned development.

The District Census Handbook is divided into two parts: Part A - contains information regarding each village and town (Village Directory and Town Directory – non census data collected from various sources) and Part B – containing the population data collected during 2011 Census - the Primary Census Abstract (PCA). The data published in Part B was collected during February-March 2011 in the Population Enumeration.

The process of data collection for the Village Directory and Town Directory (Part A) commenced in 2009 and the reference date is 31.12.2009. The Village Directory formats were mailed to the Deputy Commissioners of Districts for obtaining the village wise particulars through Village Accountants. Similarly the Town Directory formats were mailed to the Commissioners of Corporations, Chief Officers of Town Municipal Councils, Town Panchayats, etc. The village wise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the District Census Handbooks 2001. The Household Schedules, which were canvassed to collect the population data during 2011 Census, were scanned and data captured was processed electronically through ICR (Intelligent Character Recognition) Technology. The Primary Census Abstract (PCA) was generated centrally on the computers by the Office of the Registrar General, India.

In compilation of the District Census Handbooks, the Census Directorate had the co-operation of various departments of the State/Central Government. The Census Directorate gratefully acknowledges their co-operation.

I take this opportunity to offer my thanks to Dr. C. Chandramouli, I.A.S. the Registrar General & Census Commissioner, India for his valuable guidance and support. I appreciate the supervision and support given by Sri N. Manjini, Joint Director and also thankful to all the officers and officials of this Directorate who have been relentlessly involved in the compilation of this volume.

I am highly grateful to Dr. Pratibha Kumari, Assistant Registrar General (SS), Dr. R.C.Sethi, Ex-Addl. RGI, Shri Deepak Rastogi Addl. RGI. for their guidance and Shri A.P. Singh, Deputy Registrar General (Map), who provided the technical guidance in the preparation of maps. My thanks are also due to Shri A.K. Arora, Joint Director of Data Processing Division for generating the final formats of this publication under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP), ORGI.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity'

manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

BRIEF HISTORY OF THE DISTRICT

Bellary district takes its name from the word 'Balari', which refers to Goddess Durugamma as this Goddess had manifested herself in the town. Some of the events in the great epic Ramayana are related to this historical place. It is said that Rama while searching for Sita met Sugreeva and Hanuman at a place which is very near to Hampi, the celebrated capital of Vijayanagara kingdom. The history speaks volumes about significant role it acquired during Satavahanas, Kadambas, Chalukyas of Kalyana, Kalachuryas, Sevunas and Hoysalas period. Thereupon the Vijayanagara rulers built the 'City of Victory' on the bank of Tungabhadra river at Hampi in Hospet taluk. (This area which had witnessed the prosperity to its peak fell into political turmoil after the fall of Vijayanagara in 1565A.D.). This place grew up to be the capital of an empire of unsurpassed glory which held at bay the advancing forces of the Muslim invaders from the north for more than two centuries. The wealth and prosperity of the famous Hindu empire of South India assumed legendary proportions. The attack mounted by the confederate forces of the Deccan Sultans in 1565 A.D., which led to the battle at Rakkasa Tangadgi, known in historical records as the battle of Talikote, spelt the doom of this glorious empire and culminated in the complete ruin of the capital city of Vijayanagara. Following the collapse of the empire, for several decades, confusion reigned supreme in this region and several Palegars (local chieftains) established petty principalities under the overlordship of various Sultans. Later when Aurangzeb annexed the Deccan, Bellary district became part of the Moghul empire. Subsequently, these areas came under the sway of the Marathas who were in turn over-run by Hyder Ali of Mysore. In 1799, Tippu Sultan, the successor of Hyder Ali was defeated at the hands of the British and most parts of Tippu's kingdom were made over to the Wodeyars of Mysore. However, Bellary and its adjoining areas were given away to the Nizam of Hyderabad in consideration of the services rendered to the British. In 1800 A.D. Nizam ceded both Bellary and its adjoining areas to the British.

Subsequently, Bellary collectorate became a part of the Madras Presidency and at first consisted of 15 taluks. In 1883 this area was bifurcated into the districts of Ananthapura and Bellary with 7 and 8 taluks respectively. All the while, however, the Palegars reigned supreme and laid waste the farm lands with their rapacious exaction from the riots. Sir Thomas Munro, then known as Major Munro, was the first Collector of Bellary district as well as of the other ceded districts of Cuddappah, Ananthapur and Kurnool. His first task was to do away with Palegars and their methods which had resulted in impoverishing the cultivating classes. The Ryotwari Settlement was brought in and a general reduction in assessment helped to bring in a measure of peace and contentment in the region.

During the British period, Bellary - the district headquarters town - was a cantonment and was held to be of considerable strategic importance. It was developed into a centre of trade and commerce despite the constraints posed by the lack of drinking water facility. Further, from about the year 1826, the area of about 400 Sq.kms around Sandur town enjoyed the status of an independent state under the suzerainty of the British. After the attainment of Independence in 1947, the ruler of Sandur signed the merger agreement on April 1, 1949, transferring the administration of Sandur state to the government of India. In 1950, with the addition of a few villages from the adjacent taluks of Kudligi and Hospet, Sandur was constituted into an independent taluk of Bellary district. In 1953, consequent on the promulgation of the Andhra state act, the erstwhile Bellary district of Madras province was bifurcated and three of its then existing ten taluks, viz., Adoni, Alur and Rayadurga became a part of the newly constituted Andhra Pradesh and remaining seven taluks namely Bellary, Hospet, Siraguppa, Sandur, Harpanahalli, Kudligi and Hadagali as also the sub-taluk of Mallapuram were transferred to the erstwhile Mysore State.

Later in 1960, Mallapuram sub taluk was upgraded into full-fledged taluk. Consequently, the total number of taluks in the district moved upto eight. In 1974, however, Mallapuram taluk was abolished and a new taluk named after Hagari Bommanahalli was constituted. On this occasion, due to the transfer of villages from one taluk to another, there were considerable changes in the boundaries of three more taluks, viz., Kudligi, Hadagali and Hospet. With the re-organisation of the districts during 1997, the number of taluks is reduced to seven. The Harapanahalli taluk has been transferred to Davanagere district.

Administrative setup and jurisdictional changes during the decade 2001-2011

DISTRICT HIGHLIGHTS – 2011 CENSUS

- Bellary with a total population of 2,452,595 stands in the 6th position in terms of population in the State.
- The district ranks 6th in terms of rural population and urban population.
- Bellary district accounts for 4.0 percent of the total population of the State.
- With the decadal growth rate of 21 percent, it ranks 3rd in the State in terms of decadal growth rate.
- The district with a Sex ratio of 983 holds 15th rank in the State.
- The district with a Sex ratio of 960 among the child population in the age-group 0-6 holds the 7th rank in the State.
- The proportion of child population, (0-6 age-group) is 14.0 percent in the district and ranks 7th in the State.
- The district has a literacy rate of 67.4 percent and is placed at 25th rank in the State.
- The male literacy rate in the district is 76.6 percent and the female literacy rate is 58.1 percent.
- The male – female literacy gap in the district is 18.5 percentage points, which is higher than the male – female literacy gap registered by the State (14.3 percentage points).
- The Scheduled Caste population contributes 21.1 percent to the total population of the district and the Scheduled Tribe population contributes 18.4 percent.
- The district has registered a work participation of 45.5 percent and stands at 18th rank in the State.
- The work participation rates for Male and Female population are 56.9 and 34.0 respectively in the district.
- Among the total workers in the district 86.8 percent are Main workers and 13.2 percent are Marginal workers.
- Major work force of 59.5 percent are engaged in Agricultural sector i.e., Cultivators (23.1 percent) and Agricultural Labourers (36.4 percent).
- Agricultural Labourers 36.4 percent of the total workers in the district and the district holds 11th rank in the State.
- In the district 2.0 percent of the total workers are engaged in Household Industry and 38.5 percent are Other workers.
- About 54.5 percent of the total population in the district is non-workers.
- Bellary district with area figure 8461 Sq.Km stands at 7th Position in the State in terms of area.
- The population density for this district is 290 and holds 15th rank in the State.
- There are 552 villages, 10 Statutory Towns and 3 Census Towns in the district.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of

population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
